Summary

UI/UX Engineer with 3+ years of experience designing and developing responsive web applications using Figma, React, JavaScript, HTML, CSS, Bootstrap, Tailwind CSS, and jQuery. Skilled in translating Figma designs into pixel-perfect interfaces, building reusable UI components, and applying WCAG accessibility guidelines. Passionate about continuous learning, exploring new technologies, and improving user experiences through creative and scalable solutions.

Experience

Swizzle Innovations Pvt. Ltd **Apr 2024 – Apr 2026**
Product Experience Engineer L1 *Thiruvananthapuram*

- Developed responsive, pixel-perfect web interfaces for 3 in-house products, translating Figma designs into production-ready applications.
- Delivered UI enhancements, feature implementations, and usability improvements across multiple business-critical workflows.
- Fixed 100+ UI issues including layout problems, responsiveness issues, styling inconsistencies, and cross-browser compatibility issues
- Collaborated with UI/UX designers, backend developers, QA teams, and product managers to deliver features smoothly within sprint timelines

ICWares Systems & Software Pvt. Ltd **Oct 2022 – Mar 2024**
UI/UX Engineer *Thiruvananthapuram*

- Designed and developed responsive user interfaces for 20+ websites and web applications across different domains including healthcare, e-commerce, and business solutions
- Introduced Tailwind CSS within the team, conducted knowledge-sharing sessions, and helped developers adopt modern styling practices for consistent UI implementation.
- Resolved UI issues, improved application usability, and ensured responsive, cross-browser compatibility across multiple client projects.
- Participated in client discussions to understand business requirements and contributed UI/UX suggestions to deliver intuitive, user-friendly solutions.

Projects

BlackBag – Healthcare Communication Platform

- Converted Figma designs into 40+ responsive, pixel-perfect UI screens for Patient, Healthcare Provider, Admin, and Super Admin portals.
- Developed user interfaces for healthcare workflows including appointments, patient management, chat, video consultation, and dashboard screens.
- Improved user experience by enhancing layouts, navigation flow, and responsive behavior, resulting in a 25% improvement in usability based on UI refinements and workflow enhancements.
- Resolved UI issues related to alignment, responsiveness, styling, and cross-browser compatibility, improving overall application quality and consistency.
- Collaborated with designers, developers, and QA teams to deliver quality UI solutions.

Modest Gift – E-Commerce Gift Shopping Platform

- Converted Figma designs into responsive, pixel-perfect frontend interfaces for desktop and mobile e-commerce experiences.
- Developed UI screens for product listing, product details, shopping cart, checkout, order management, and admin dashboard workflows.
- Improved shopping experience by optimizing product browsing flow, checkout layouts, and responsive designs to support better customer interactions.
- Collaborated with stakeholders and development teams to implement UI enhancements and support smooth e-commerce operations
- Designed and developed responsive email templates for order confirmations and user notifications.

Education

MG University — *Bachelor of Computer Applications (BCA)* 2018, Kottayam
