PROFESSIONAL SUMMARY

UI/UX Designer and Computer Science graduate with hands-on experience in UI/UX design, web development, and application development through freelance work, internship, and professional experience. Skilled in designing user interfaces, wireframes, prototypes, user flows, and responsive digital experiences using Figma, Adobe XD, Photoshop, Illustrator, Framer, and Canva. Experienced with Angular, HTML, CSS, JavaScript, Bootstrap, and Android development. Strong ability to combine design and development skills to create functional, user-friendly digital experiences.

FREELANCE EXPERIENCE

UI/UX Designer – GetVia **Freelance**

- Designed an AI-powered business profile listing platform as a real-time website.
- Created user interface layouts, user flows, and design concepts focused on usability and clear information presentation.
- Developed the visual interface using modern UI/UX principles to create an intuitive digital experience.

INTERNSHIP EXPERIENCE

UI/UX Designer Intern **Futura Labs, Kochi**

- Designed user interfaces and interactive prototypes for web and mobile application concepts.
- Created application screens, layouts, navigation flows, and visual components using Figma and Adobe XD.
- Applied UI/UX principles to improve usability, visual consistency, and overall user experience.
- Translated requirements into structured user interfaces and design solutions.

PROFESSIONAL EXPERIENCE

Web Developer **Qizo Technologies and Solutions**

- Worked as a Web Developer involved in developing and maintaining web-based applications.
- Developed user interfaces using Angular, HTML, CSS, JavaScript, and Bootstrap.
- Implemented responsive layouts and interactive web components based on project requirements.
- Worked on application functionality, debugging, and improving the usability of web interfaces.
